# Complete aviation experience

## **FIXED WING ENGINEERING**

Multiflight offers a one-stop shop fixed wing engineering facility, servicing a wide range of Jet and Piston powered aircraft. So whether you are a corporate, commercial or private aircraft owner, we have the expertise and experience to deliver the highest standards of engineering excellence.

## **HELICOPTER ENGINEERING**

Here at Multiflight we can maintain a wide range of helicopters. Our team of highly skilled helicopter engineers provide maintenance and technical support to commercial helicopter operators and private helicopter owners throughout the UK.

## **ENGINE REPAIR/OVERHAUL WORKSHOPS**

Multiflight Engine Service facility has capability of not just Overhauling or Repairing your Aircraft Engine, but we have the experience and expertise to support both our work and our customers to the highest standards.

## **AVIATION INSTALLATION / DESIGN SERVICES**

Our avionics installation team can provide numerous component and avionic repair services. These include a comprehensive battery shop facility.

## **SPARES DEPARTMENT**

To support our engineering activities our dedicated spares department can provide, as agents, a full range of Cessna parts, as well as Continental engines and spares, Lycoming engines and spares, plus Honeywell, Garmin and Ryan avionics equipment.

Multiflight is a leading aircraft maintenance provider in the North of England, specialising in the support of turbine and piston helicopters and fixed wing aircraft.

## CAA, EASA & FAA APPROVALS

Multiflight is CAA/EASA and FAA approved to maintain specific types of aircraft. In addition to the standard maintenance services we provide, we also have our own avionics installation team and can provide numerous component and avionic repair services. These include a comprehensive battery shop facility.

## AIRWORTHINESS REVIEW CERTIFICATE (ARC)

Every European Aviation Safety Agency (EASA) aircraft that is registered in the UK and is operating on a full EASA Certificate of Airworthiness (C of A) is issued, at renewal, with a non-expiring C of A that is supported by an Airworthiness Review Certificate (ARC).

Airworthiness Review Certificates are valid for a period of 12 months. In order to allow legal flight to continue you need to ensure that before your ARC expires that a new ARC is issued or that the existing one is extended.

### ***Need help with your ARC?***

*Contact the Multiflight engineering department for help and information about your Airworthiness Review Certificate (ARC).*

## THIRD PARTY MAINTENANCE SERVICE

Here at Multiflight our maintenance centre's highly skilled and dedicated team has a wealth of engineering talent. Our extensive aircraft engineering facilities allow us to provide the highest quality third party maintenance service. We work with both private and professional operators and can provide you with a comprehensive and competitive maintenance service that ranges from a simple oil change to a complete overhaul and refit.

## PRE-BUY AIRCRAFT INSPECTION OR SURVEY

If you are buying an aircraft it is essential that you invest in a thorough pre-buy aircraft inspection or survey and Multiflight can carry this out for you. We can ensure that the aircraft and paperwork records are thoroughly inspected by our skilled aircraft engineering team, which will:

- Assess possible aircraft damage history
- Assess and review aircraft maintenance history
- Check the full system of your aircraft, including engine runs
- Carry out a flight test

## **CESSNA, DIAMOND, CIRRUS SERVICE CENTRE**

We maintain our own fleet of fixed wing aircraft and helicopters as well as looking after clients' aircraft, ranging from the complex twin-engine 365 Dauphin helicopter through to the Robinson R22 as an official Robinson Service Centre. We are also a Cessna Customer Care Centre and are approved for maintenance for the Cessna Caravan and Cessna 425 to the small single engine Cessna 150.

We are also a Cirrus Service Centre and provide a full range of technical and record services. As a Diamond Service Centre we provide a full maintenance and warranty service for Diamond aircraft.

## **OFFICIAL ROBINSON SERVICE CENTRE**

We offer a comprehensive maintenance service on a wide range of piston and turbine helicopters and have full CAA, FAA and Bermudan approvals, and are an official Robinson Service Centre.

The aircraft we can look after include Robinson R22, Robinson R44, Bell 206 Jet Ranger, Long Ranger, AS365 Dauphin, AS355 Twin Squirrel, AS350 Single Squirrel, and Agusta 109. Our experienced engineers are also able to offer advice on a wide range of helicopters not listed.

## **IN-HOUSE AVIONIC DESIGN SERVICES**

We can provide in-house avionics engineering design and installation services, and, as agents, can provide avionics equipment from Honeywell, Garmin, Narco, Avidyne and Ryan. We provide facilities for both CAA/EASA as a part 145, as well as a FAA part 145.

## **ENGINE SHOP SERVICES**

- Continental Engine Repair, Overhaul and Shock-loads.
- Lycoming Engine Repair, Overhaul and Shock-loads.
- Bendix Magneto, Slick Magneto Repairs, Overhauls and Inspections.
- Precision Carburettor and Engine Cylinder Overhauls and Repairs.
- Ultrasonic, Dye Penetrant NDT and Magnetic Particle NDT Inspection Services.
- Quick Turn around on Engines and components as a result of well maintained stock levels and planned scheduling. With support for both Teledyne and Lycoming.
- Genuine Continental, Lycoming, Precision, Bendix Ignition and slick spares used.
- Fully approved and trained staff with over 70 years of combined piston engine experience.

## MAINTENANCE PACKAGES

Multiflight is a leading aircraft maintenance provider in the North of England, specialising in the support of turbine and piston helicopters and fixed wing aircraft. We have invested heavily in our on the ground facilities here at Leeds Bradford International Airport to create an aircraft maintenance centre featuring the latest computer technology. Whether you have fixed wing maintenance or helicopter maintenance requirements, we can fulfil them.

We are Yorkshire's premier aviation centre and exclusively occupy the South Side of Leeds Bradford International Airport.

We maintain a wide range of aircraft here at Multiflight. The fixed wing aircraft we can provide maintenance for include:

Vulcanair  
Mooney  
Diamond

Cirrus  
Socata

Piper Meridian  
Pilatus

Lear  
Kingair

Hawker  
Gulfstream

Falcon  
Conquest

Citation  
Challenger

Cessna  
Caravan

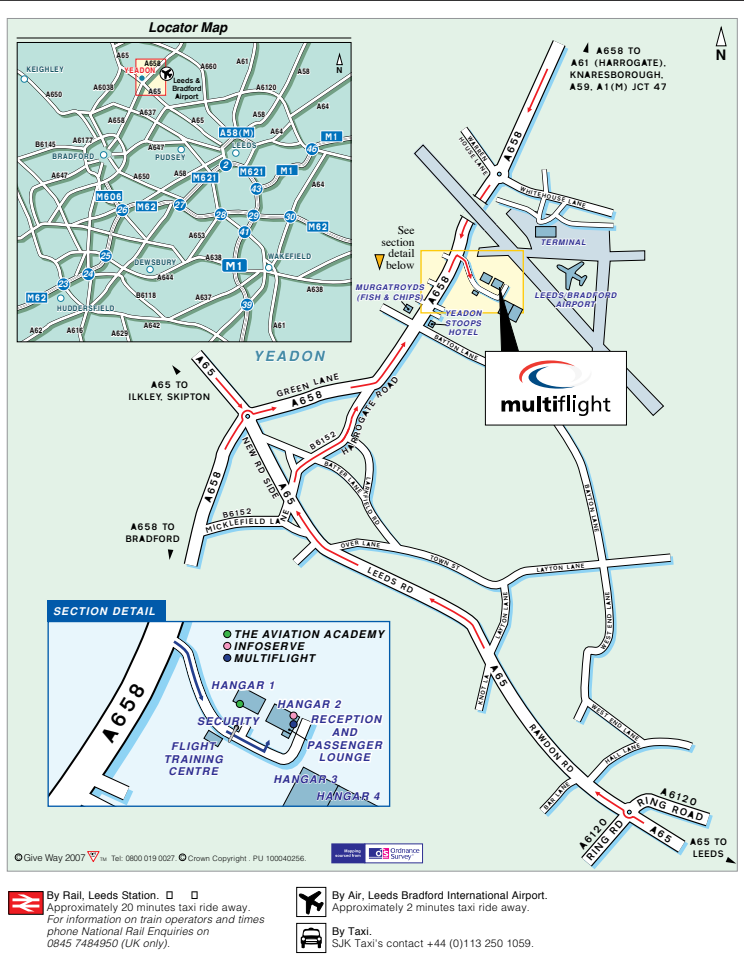

Bombardier  
Beechjet  
Beechcraft

For anyone requiring helicopter maintenance, we maintain the following helicopters:

Robinson  
Bell  
Sikorsky  
MD Helicopters  
McDonald Douglas  
Eurocopter  
Agusta Bell  
Agusta
